

Strategic Cyber Security Partnership

Charles Russell Speechlys

Case Study

Working together for more than 10 years MTI has supported Charles Russell Speechlys through multiple transitions including rapid growth and acquisitions. Working together as partners, we understood their organisation and the unique challenges they faced. This allowed us to develop tailored and effective solutions delivered as an intrinsic part of their team.

About Charles Russell Speechlys

Charles Russell Speechlys is an international law firm with a focus on private capital at the intersection of personal, family and business.

Spanning the realms of corporate and private law, they provide their clients with full service legal advice across multiple spheres. Working globally, they have 1200+ users across multiple sites who require secure access to confidential and sensitive client data.

Why MTI

Charles Russell Speechlys has had a long-standing relationship with MTI, who has assisted them in enhancing their cybersecurity during a series of mergers and acquisitions. This support has helped transform them into an international organisation with over 1200 employees across multiple locations and territories. This proven relationship was the foundation for a bespoke approach that reflected the needs of this law firm which had a need to protect the privacy of its wealthy clientele.

MTI have proven themselves to be experts in the field, staying abreast of advances in both threats and solutions and retaining an adaptability that is not present in some larger, household name, providers.

Working with the client profile they do, and on the types of cases they take, there is a need to reassure their clients that their information is secure. MTI have a proven track record to support this.

Challenges

- Managing rapid growth whilst maintaining quality and stability of services delivered with Security at the core of the IT Strategy
- Navigating their journey along the Cyber Security Maturity Curve and establishing a clear Cyber & Information Security Framework
- Ensuring complex compliance regulations are adhered to throughout the organisation, alongside achieving additional requirements and accreditations i.e Cyber Essentials Plus
- Keeping up to date with the ever changing technology landscape whilst ensuring integration with legacy and industry specific systems
- Modernising and future proofing workplace and IT service delivery without compromising quality and stability
- Recruitment of highly skilled technical team

We've partnered with MTI to build a much wider and more capable cyber security offering. We have confidence in the MTI team as we know they've got the right people that can adapt and that will work for us as an extended part of our team.
